Date

Signature

After preparation of the necessary technical documentation as well as the conformity declaration the required marking can be affixed to the product. Other relevant directives have to be observed. See also notes overleaf.

**Please note:**

The certificate is issued after testing of the named product/s and/or audit of the technical documentation and confirms that the tested product complies with the essential protection requirements of the mentioned directives on a voluntary basis. The test result/audit result applies only to the sample and/or technical documentation submitted to emitel-TR. The certificate holder is responsible for the consistent manufacturing of the product in compliance with the test sample submitted for testing.

This certificate expires when technical modifications to the product are made or, when the essential requirements of the listed directives change. When technical modifications which may impact conformity with the essential requirements of the listed directives need to be made, please ask for our consultancy.
